February 8, 2022

Board of Supervisors
Lakeside Plantation
Community Development District

Dear Board Members:

The regular meeting of the Board of Supervisors of the Lakeside Plantation Community Development District will be held **Wednesday, February 16, 2022 at 6:00 p.m. at the Lakeside Plantation Clubhouse, 2800 Plantation Blvd., North Port, Florida.** Following is the advance agenda for the meeting:

- I. Roll Call
- II. Pledge of Allegiance
- III. Audience Comments on Specific Items on the Agenda (*Speakers will fill out a card and submit it to the District Manager prior to beginning of the meeting*)
- IV. District Engineer's Report
 - A. Consideration of Scope of Work for Preserve Area Maintenance
 - i. Treatment and/or Removal of Exotics
 - ii. Thinning of Palmettos
 - iii. Removal of Grapevines
- V. Unfinished Business
- VI. New Business Items
 - A. Consideration of Proposals for HVAC Preventative Maintenance
 - i. Air 360
 - ii. Cool Today
 - iii. Honest Air
 - B. Consideration of Resolution 2022-03 Designating Registered Agent
 - C. Ratification of Proposal for Upgrade/Replacement of Fire Alarm System
- VII. Business Administration
 - A. Approval of Minutes of January 19, 2022 Meeting
 - B. Approval of Check Register
 - C. Balance Sheet and Income Statement
- VIII. General Audience Comments
- IX. Staff Reports
 - A. District Counsel
 - B. District Manager
 - i. Action Items List

C. Amenities Manager – Monthly Report

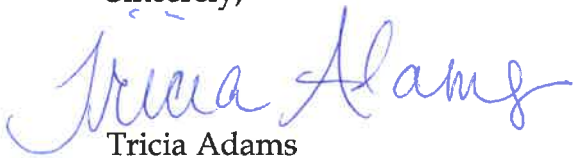

i. Discussion of Proposed Amenity Staffing Hours

- X. Other Business
- XI. Supervisors' Requests
- XII. Closed Session – *Confidential*
- XIII. Adjournment

In accordance with Sections 119.071(3)(a) and 281.301, Florida Statutes, a portion of the Regular Meeting may be closed to the public, as it relates to the District's security system plan. The closed session is scheduled to begin at approximately 7:00 p.m. but may begin at any time during the Regular Meeting, and is expected to last approximately thirty (30) minutes, but may end earlier than expected or may extend longer. When the security system plan agenda item is discussed the public will not be in attendance. The public will be notified that they may return upon completion of the discussion regarding the security system plan.

The balance of the agenda will be discussed at the meeting. In the meantime, if you have any questions, please contact me.

Sincerely,

Tricia Adams
District Manager

Cc: Michael Eckert, District Counsel; Sarah Sandy, District Counsel; Andy Tilton, District Engineer; Brent Burford, District Engineer

LIST OF APPENDICES

APPENDIX A	OVERALL PAVING AND DRAINAGE PLAN
APPENDIX B	PHOTO DOCUMENTATION

1.0 INTRODUCTION

The Lakeside Plantation Community Development District (CDD) is responsible for the maintenance of common areas including the stormwater management system and wetlands found within the Lakeside Plantation community. The Lakeside Plantation community is a 306 acre mixed residential and commercial development located in the City of North Port, in Sections 17 and 18 of Township 39 South, Range 22 East in Sarasota County. More specifically, the property is located east of Toledo Blade Blvd. and north of the Snover Waterway. The Lakeside Plantation community includes ten (10) preservation areas totaling approximately 73.33 acres, the maintenance of which is the responsibility of the CDD. This report serves to: 1) Summarize local and state conditions of approval along with protective covenants pertaining to the maintenance of wetland preserve areas found within the Lakeside Plantation property; 2) provide an evaluation of the preserve areas and; 3) suggest preserve area management practices meant to ensure the health of the wetland system and promote compliance with applicable regulations.

2.0 PERMIT REQUIREMENTS

2.1 Development of Regional Impact:

Lakeside Plantation is part of the larger Panacea Development of Regional Impact (DRI), which received local conceptual approval from the City of North Port (City) through Resolution No. 86-R-96, and amended through Resolution No(s). 86-R-100, 88-R-14, 91-R-13, 99-R-14, and 2000-R-26. The following conditions found in the DRI pertain to the maintenance and management of wetland preserve areas found on the property:

Wetlands:

- 1. The wetland areas included as Open Space/Preserve area shall be preserved, maintained, and enhanced if possible in their entirety.*

Vegetation and Wildlife:

- 2. Harmful exotic plants species, such as Melaleuca, shall be removed during each phase of construction, from development areas and open space areas.*

2.2 Southwest Florida Water Management District:

The Southwest Florida Water Management District (SWFWMD) issued Environmental Resource Individual Construction Permit (ERP) number 4318655.01 on May 25, 1999. Review of the ERP shows that the Lakeside Plantation development was designed, permitted and constructed to avoid impacts to jurisdictional wetlands found on the property. The ERP requires the preservation and management of preserve areas located within the development. The following conditions found in the ERP pertain to the maintenance and management of wetland preserve areas found on the property:

Specific Conditions

- 7. Wetland buffers shall remain in an undisturbed condition except for approved drainage facility construction/maintenance.*
- 11. No owner of property within the subdivision may construct or maintain any building, residence, or structure, or undertake or perform any activity in the wetlands, wetland mitigation areas(s), buffer area(s), upland conservation area(s), and drainage easement(s) described in the approved permit and recorded plat of the subdivision, unless prior approval is received from the SWFWMD Venice Regulation Department.*

2.3 US Army Corps of Engineers:

No US Army Corps of Engineers permit was required because no wetland areas were impacted in association with the construction of Lakeside Plantation.

2.4 Protective Covenants:

The Master Declaration of Protective Covenants, Conditions and Restrictions for Lakeside Plantation as recorded in Instrument # 1999137858 of the Sarasota County Clerk of Court Official Records requires the homeowners and the CDD to comply with the following preserve area management and maintenance conditions:

5.01(q) Wetlands, Lakes, and Water Bodies. All wetlands within the Property shall be left in their natural state and no alteration thereof or construction thereon shall be permitted.

12.04 No activity may be undertaken or performed in preserved wetlands, created wetlands, upland buffers to wetlands, or upland preservation areas which are contained within conservation easements and described in the recorded plat(s) of the Community, unless prior written approval is received from SWFWMD.

Prohibited activities within preserved wetlands, created wetlands, upland preservation areas and upland buffers adjacent to wetlands, include the removal of native vegetation, excavation, placing or dumping of soil, trash or land clearing debris, and construction or maintenance of any building or structure.

Research into available permit conditions did not reveal specific success criteria for the management of onsite preserves.

3.0 PRESERVE AREA ASSESSMENT

The Lakeside Plantation community includes ten (10) wetland preserve areas totaling approximately 73.33 acres. Wetland and Lake names were taken from the Overall Paving and Drainage Plan associated with the approved ERP (**Attachment A**). An onsite assessment of the preserve areas was conducted by a Johnson Engineering, Inc. ecologist on October 20, 2015.

Generally speaking, the wetland preserve areas appear to be in good health. The wetlands include a large diversity of desirable wetland species and the hydrology appears to be providing appropriate volume and duration of water necessary to maintain healthy wetland systems. Exotic vegetation, though present, comprises relatively low percent coverage compared with native vegetation. However, these invasive plant species will continue to colonize the preserves and out compete desirable plant species in the future. Each wetland preserve area is described below along with specific management and maintenance issues associated with each:

3.1 Wetland 8 A&B (14.10 acres):

Wetland 8 A&B is located in the northwest portion of the development. This wetland area was combined on the ERP permit, but will be addressed as two separate preserves in this report.

Wetland 8A lies north of Magnolia Circle and is comprised of freshwater marsh as well as hydric pine flatwood habitats. The freshwater marsh includes wax myrtle (*Myrica cerifera*), cattail (*Typha domengensis*), sawgrass (*Cladium jamaicense*) and various hydrophytic grasses and sedges. The hydric pine flatwoods habitat includes slash pine (*Pinus elliotii*), cabbage palm (*Sabal palmetto*), wax myrtle and myrsine (*Myrsine cubana*). Mature seed bearing Brazilian pepper (*Schinus terebinthifolus*), a Category I exotic plant species (FLEPCC) was observed in several places along the perimeter of the preserve area. Cogongrass (*Imperata cylindrica*), another Category I exotic species, was observed in two locations (behind the water management area northwest of Peach Circle and west of Lake 4). A small area of primrose willow (*Ludwigia peruviana*) was observed in Wetland 8A and cattail dominates the deeper portion of Wetland 8A.

Wetland 8B is situated on the west side of Sycamore Street south of the Imagine Elementary School. This area is comprised of hydric pine flatwoods surrounding a freshwater marsh. Species composition includes slash pine, cabbage palm, wax myrtle, sawgrass and other wetland species. Brazilian pepper is was observed in small patches throughout this preserve area, as well as scattered melaleuca (*Melaleuca quinquenervia*).

3.2 Wetland 8 C (2.90 acres):

Wetland 8C is located between Magnolia Circle and Scarlett Avenue. This is a hydric pine flatwoods community composed of slash pine and cabbage palm. Dense areas of Brazilian pepper were observed on the perimeter of this preserve. Additionally, Old World climbing fern (*Lygodium microphyllum*), a Category I exotic species, was observed in the southwest and northwest corners of this preserve area.

3.3 Wetland 9 (0.83 acres):

Wetland 9 is located along the southern boundary of the site along the Snover Waterway. This small freshwater marsh is comprised of desirable native wetland plant species including pickerel weed (*Pontederia cordata*), arrowhead (*Sagittaria lancifolia*), bluestem (*Andropogon sp.*) and wax myrtle. The perimeter of Wetland 9 along with its upland buffer is a pine flatwoods community that has been heavily infested with Brazilian pepper.

3.4 Wetland 11 (2.00 acres):

Wetland 11 is situated along the northern property line between Lakes 4 and 7. This wetland includes hydric pine flatwoods and freshwater marsh communities. Brazilian pepper was observed throughout the forested portion of this wetland. Cattails were observed north of the headwall where culverts cross Scarlett Avenue into Wetland 11A. Additionally, several escaped house plants were observed on the outside edge of the preserve.

3.5 Wetland 11A (2.80 acres):

Wetland 11A is surrounded by Cottonwood Lane, Scarlett Avenue and Plantation Boulevard. The perimeter of this hydric pine flatwoods community has been invaded by Brazilian pepper. Cogongrass was observed on the northwest side, and torpedograss (*Panicum repens*), a Category I exotic species, was observed near the headwall leading to Wetland 11.

3.6 Wetland 12 (6.20 acres):

Wetland 12 is located south of Plantation Boulevard and west of Scarlett Avenue. This freshwater marsh habitat includes wax myrtle, maidencane (*Panicum hemitomon*), muhlygrass (*Muhlenbergia capillaris*) and cordgrass (*Spartina bakeri*). A patch of cogongrass was observed on the western edge of this preserve area and Brazilian pepper was observed around the perimeter.

3.7 Wetland 13 (10.40 acres):

Wetland 13 is a large freshwater marsh located near the center of the property along the southern boundary. Pickerelweed, arrowhead, maidencane, wax myrtle and cordgrass were observed in this wetland along with scattered slash pines. Cogongrass was observed on the western edge of this wetland and coverage by Brazilian pepper was dense along much of the perimeter. Additionally, areas where vegetation had been recently cut and placed within the preserve area was observed south of Dixie Lane.

The perimeter of Wetland 13 includes dense areas of saw palmetto (*Serenoa repens*) and grapevine (*Vitis rotundifolia*). Although these plants are native to the preserve areas, they can become overgrown shading out other desirable species and posing an increased fire danger for nearby homes if not periodically maintained by mowing, roller chopping, or prescribed burning.

3.8 Wetland 14 (3.70 acres):

Wetland 14 is located between Pecan Drive and Savannah Drive. This freshwater marsh contains cogongrass in several areas. Small melaleuca trees were observed in the marsh as well as Brazilian pepper around the perimeter. Additionally, the upland buffer between Wetland 14 and the adjacent residences includes dense stands of saw palmetto and grapevine.

3.9 Wetland 23 (8.60 acres):

Wetland 23 is located on the eastern side of the property west of Scarlett Avenue. This freshwater marsh includes scattered slash pines, wax myrtle, along with hydrophytic grasses and forbs. Several exotic or nuisance species were observed in this wetland including ragweed (*Ambrosia artemisiifolia*), caesarweed (*Urena lobata*), Brazilian pepper, melaleuca and cogongrass. Additionally the upland buffer surrounding Wetland 23 included dense stands of saw palmetto and grapevine.

3.10 Wetland 25 (21.80 acres):

Wetland 25 is the largest and easternmost preserve area in Lakeside Plantation. This hydric pine flatwoods community was dominated by slash pine in the canopy. Wax myrtle, myrsine, laurel oak (*Quercus laurifolia*) and numerous hydrophytic herbaceous species were also observed. Brazilian pepper was observed in several places of this preserve, especially around the perimeter. Small scattered melaleuca were also observed in this preserve, and an area covered by cogongrass was observed north of Lake 12. Dense saw palmetto and grapevine was observed east of the homes on Scarlett Avenue.

4.0 PRESERVE AREA MANAGEMENT PLAN

A successful preserve area management plan must clearly identify the goals for the preservation areas as well as the activities and schedules that will be employed. This section will discuss problematic plant species observed onsite and the success criteria necessary to determine the effectiveness of the management plan. Additionally, a proposed schedule for maintenance activities and monitoring is discussed to ensure progress toward the stated goals and determine problem areas to be slated for additional management activities.

4.1 Species to be Managed

The preserve area assessment revealed that invasive exotic species including Brazilian pepper, melaleuca, primrose willow, cogongrass, torpedograss and Old World climbing fern were established in the preserve areas. All of these species are listed as Category I invasive exotic plant species by the Florida Exotic Pest Plant Council's (FLEPPC) 2015 List of Invasive Plant Species. The SWFWMD and other permitting agencies often require that preserve areas are maintained free of Category I and Category II invasive exotic plants listed on the FLEPPC List of Invasive Plant Species. Additionally, portions of Wetlands 13, 14, 23 and 25 contain dense stands of saw palmetto and grapevine.

Management of woody exotic vegetation such as Brazilian pepper, melaleuca, and primrose willow typically includes the cutting and removal of the plant followed by the application of appropriate herbicide. Timing the removal of woody exotic species so that

they cannot become mature and spread additional seed is critical to their long term control.

Management of exotic and invasive grasses such as cogongrass and torpedograss often requires the cutting and removal of the leafy part of the plant and applying appropriate herbicide as new growth appears. Regular repeated herbicide treatment is often required to effectively control cogongrass and torpedograss.

Exotic vines such as Old World climbing fern pose an additional threat to preserve areas by climbing into the canopy and shading out desirable vegetation beneath. This vegetation becomes more susceptible to wild fires, and the vines themselves help carry fire into the canopy of native trees. Management of Old World climbing fern requires cutting and removing as much of the vegetative material as practicable followed by regular repeated treatment with an appropriate herbicide.

Saw palmetto is a desirable native plant found throughout southern Florida. Saw palmetto is resistant to damage from fire and recurring low intensity wildland fires historically controlled the density and height of saw palmetto. If left unmanaged, saw palmetto fronds can become dense and shade out other desirable species in the ground cover stratum. Dead and even green palmetto fronds are highly combustible and can often be carried into the air during fires potentially spreading the fire to other areas. Although the removal of saw palmetto plants from the preserve areas is not permitted, the thinning of palm fronds in the preserve area increases plant diversity and reduces the threat of catastrophic fires. Management of saw palmetto typically includes prescribed burning, and hand removal of dead and overgrown fronds. Mechanical removal (mowing, grinding or chopping) can also be utilized if approved by the regulating agencies.

Grapevine is an aggressive native vine that can climb over and outcompete other desirable vegetation. It can also carry flames into the canopy of forested areas, killing the trees and posing an increased risk of catastrophic fires. Management of grapevine includes cutting the vines near the ground and removing as much of the vegetative material as practicable.

4.2 Success Criteria

Establishing appropriate success criteria sets the parameters by which the management of preservation areas are measured. Typically, the SWFWMD and other local, state and federal permitting agencies set success criteria for the percent coverage of desirable species and exotic species coverage. As stated above, the preserve areas of Lakeside Plantation are generally in good health with a relatively high diversity of desirable plant species. Additionally, the coverage of desirable plant species exceeds 90% throughout most of the preserves.

The SWFWMD and other permitting agencies typically require that the coverage of FLEPPC Category I and II exotic and nuisance plant species not exceed 5% of total cover. Additionally, the preserve areas must be managed so that exotic/nuisance plant species do not dominate any one section. If the CDD chooses to implement a preserve management plan, one option would be that the preserve areas be managed in this manner. In the absence of established guidelines the management plan is ultimately up to the CDD to determine.

4.3 Schedule

The effective herbicidal treatment of exotic vegetation typically requires annual or semi-annual application during the growing season. If the CDD chooses to implement a preserve management plan, one option would be to schedule annual preserve area management activities and herbicidal treatments during spring and / or early summer for the next three years.

Once initial management of overgrown saw palmetto and grapevine are completed, recurring treatment and site observations may only be required every 1 - 2 years. Prescribed fires are an effective and economical method of reducing the density of saw palmetto and grapevine. Additionally, prescribed fires recycle nutrients bound up in plant material and open up preserve areas for recruitment of desirable species. However,

the existing density and height of saw palmetto, coupled with the grapevine growing into the canopy of native trees may preclude the use of prescribed fire for the initial treatment.

4.4 Monitoring

Typically, the SWFWMD and other permitting agencies require a minimum of five years of annual monitoring for preserve areas. This monitoring ensures that the management activities are being conducted in a manner to achieve the goals of the management plan. Additionally, regular monitoring can help locate problematic areas and tailor appropriate follow-up treatment. An option is to provide the CDD with annual qualitative monitoring reports including photos and/or maps of problem areas with recommendations for treatment.

5.0 SUMMARY

The Lakeside Plantation CDD is responsible for the management of approximately 73.33 acres of onsite wetland preserve areas within the Lakeside Plantation development. However, research of approved permits from the City of North Port DRI and SWFWMD ERP did not reveal specific management criteria for the preserves. An onsite assessment of the preserve areas was conducted by an ecologist from Johnson Engineering, Inc. on October 20, 2015. The preserve areas were found to be in good condition with high diversity and coverage of desirable plant species.

Category I invasive exotic species including Brazilian pepper, melaleuca, primrose willow, cogongrass, torpedograss, and Old World climbing fern were observed in scattered portions the preserve areas. Annual treatment of invasive exotic vegetation is recommended for a period of five years.

Dense stands of overgrown saw palmetto and grapevine were observed in portions of the preserve areas. Thinning of saw palmetto and grapevine are recommended every 1 - 2 years to increase light to the ground cover stratum and decrease the risk of catastrophic fires.

Preserve Area Evaluation
Lakeside Plantation Community Development District

Annual qualitative monitoring of the preserve areas is recommended to provide feedback to the CDD. Monitoring reports would be prepared and provided to the CDD.

the 1990s, the number of people in the UK who are employed in the public sector has increased by 1.5 million, from 2.5 million in 1980 to 4 million in 1999 (Department of Health 2000).

There is a growing emphasis on the need to improve the efficiency of the public sector, and to ensure that the public sector is able to deliver the services that are required by the public. This has led to a number of initiatives, including the introduction of competition, the restructuring of public services, and the introduction of new management practices. These initiatives have led to a number of changes in the way that public services are delivered, and have led to a number of improvements in the efficiency of the public sector.

One of the key challenges facing the public sector is the need to improve the efficiency of the public sector. This has led to a number of initiatives, including the introduction of competition, the restructuring of public services, and the introduction of new management practices. These initiatives have led to a number of changes in the way that public services are delivered, and have led to a number of improvements in the efficiency of the public sector.

Another key challenge facing the public sector is the need to improve the quality of the services that are delivered. This has led to a number of initiatives, including the introduction of new standards, the introduction of new management practices, and the introduction of new technologies. These initiatives have led to a number of changes in the way that public services are delivered, and have led to a number of improvements in the quality of the services that are delivered.

A third key challenge facing the public sector is the need to improve the financial performance of the public sector. This has led to a number of initiatives, including the introduction of new financial management practices, the introduction of new budgeting systems, and the introduction of new performance measurement systems. These initiatives have led to a number of changes in the way that public services are delivered, and have led to a number of improvements in the financial performance of the public sector.

These initiatives have led to a number of changes in the way that public services are delivered, and have led to a number of improvements in the efficiency of the public sector, the quality of the services that are delivered, and the financial performance of the public sector. These improvements have led to a number of benefits for the public, including improved access to services, improved quality of services, and improved financial performance.

These improvements have led to a number of benefits for the public, including improved access to services, improved quality of services, and improved financial performance. These improvements have led to a number of benefits for the public, including improved access to services, improved quality of services, and improved financial performance.

WE PROPOSE MAINTENANCE SERVICES FOR THE HEATING AND COOLING SYSTEMS AT THE CLUBHOUSE BUILDING FOR THE SUM OF \$100.00 PER UNIT AT THE FREQUENCY OF 2X A YEAR BY A NATE TRAINED CERTIFIED TECHNICIAN.

THIS IS FOR ALL COMMERCIAL AND RESIDENTIAL UNITS AT YOUR CLUBHOUSE. FILTERS WOULD BE INCLUDED (NO CHARGE) WITH THE 'CHAMPION RESIDENTIAL STYLE UNITS' BUT THE LARGER COMMERCIAL UNITS THEY WOULD BE BILLED OUT AT OUR COST + 15% MARKUP.

WE ARE A CHAMPION DEALER SO THE RESIDENTIAL STYLE UNITS WOULD BE COVERED BY JOHNSON CONTROLS PARTS WARRANTY AND WE WOULD FILE FOR ANY WARRANTY CLAIMS DIRECTLY WITH CHAMPION.

SERVICE CALLS (NORMAL HOURS) WOULD BE BILLED OUT AT \$59.95 7 DAYS A WEEK CALLS OUTSIDE THE HOURS OF 7-5 PM WOULD BE A FLAT FEE OF \$100.00 PLUS PARTS ANY PARTS CONSUMED DURING THE PM VISITS WOULD BE OUR COST PLUS 15%

THE LABOR RATE FOR REPAIRS IS \$75/HR FOR A TECHNICIAN (WHILE ON SITE- NO TRAVEL FEES) THERE IS NO LABOR FEE INCREASE FOR AFTER HOURS OR WEEKENDS.

WWW.AIR360HEATINGANDCOOLING.COM PHONE : 941-916-0440 FAX: 941-237-4098 FACEBOOK AIR 360 HEATING AND COOLING

STANDARD LABOR RATE : \$ 75.00 HR PER TECH , SERVICE CALL BASE RATE \$59.95 EACH CALL UNLESS UNDER PLAN. REPAIRS ARE COVERED UNDER OUR 90 DAY WARRANTY UNLESS NEGLIGENCE OR ACT OF GOD IS CAUSE OF RETURN CALL. NEW EQUIPMENT IS COVERED FOR 1 YEAR AFTER INSTALLATION OR MORE IF MANUFACTURER WARRANTS SUCH.

TERMS: 75% DEPOSIT FOR EQUIPMENT 24 HOURS BEFORE INSTALLATION, FULL BALANCE DUE UPON COMPLETION
 If collection is necessary, customer agrees to pay reasonable attorney's fees plus court costs. Signee hereby affirms that they have the authority to order the work that has been completed as outlined above. It is agreed that the seller will retain title to any equipment or material that has been or may be furnished until final payment has been made and if payment is not made it is agreed that the seller shall have the right to remove the equipment or material and AIR 360 Heating and Cooling, LLC will be held harmless for any damages resulting from the removal thereof due to a non-payment related issue.
 Materials or parts warranties are subject to manufacturer's established warranty policies. Improper maintenance, acts of god, rodent infestation, misuse or abuse of the equipment will void all claims of Warranty for work and equipment provided by AIR 360 Heating and Cooling, LLC. No other warranties exist other than the warranties provided by the manufacturer or specific warranties stated above. AIR 360 Heating and Cooling, LLC has the sole determination of any or all warranty claims. By signing both acceptance and installer sign off signee does hereby affirm acceptance with all terms stated and certifies complete satisfaction and total completion of work associated with this installation.

NO HOLDBACKS ON COMPLETION PAYMENTS FOR SPECIAL ORDER ITEMS OR CUSTOM SHEET METAL WORK LIKE SHROUDS, HANGERS, OR SUPPORTS. FULL BALANCE DUE UPON COMPLETION OF WORK. UNIT OPERATION IS CONSIDERED COMPLETE.

Standard A/C Service & Maintenance Agreement

This Agreement is made by and between:

Contractor:	Customer Location:
Cool Today/Plumbing Today/Energy Today 6143 Clark Center Ave. Sarasota, FL 34238 Off: 941-921-5581 Fax: 941-923-3642	Lakeside Plantation 2200 Plantation Boulevard North Port, FL 34289 Off: (941) 423-5500 Email: manager@lakesideplantationcdd.com
Herein after known as "Contractor"	Herein after known as "Customer"

Billing address (if different than location):	above
---	-------

Contractor agrees to provide the services described in the attached schedules in accordance with the following terms and conditions:

Schedule "A": Describes the level of service being provided by the Agreement.

Schedule "B": Describes the limit of liability and the terms and conditions.

Schedule "C": Describes the equipment covered by the Agreement.

Schedule "D": Describes the filter types and changes per year.

Payment Terms

- The service agreement price is **(\$1,012.00)** per year.
- You have the option of making the payment in full, semiannually, quarterly (choose one).
- The first payment is due on or before the day coverage begins **(TBD)**. Coverage shall continue for **(1)** year.

Additional Terms

- Agreement covers **(3)** system.
- This agreement includes **(2)** high quality preventative maintenance visits with filter changes and drain line clearings each visit. Belts are changed **(1)** time per year.
- A **10%** discount will apply to **all type of service calls** including labor and materials to make repairs. Onetime Service call discounted fee of (\$100) service. Any remaining labor warranty and/or factory parts warranty will be processed through the factory until the warranty ends.
- Customer will get 24hour priority service, 7 days per week with **NO** overtime charges
- Labor per hour (\$176) for a job that requires one Technician.

The schedules attached to the service Agreement constitute the entire Agreement between the Contractor and the Customer. The service Agreement remains the property of Contractor and is provided for the Customer's use only. This service Agreement is subject to management approval by Contractor. No waiver, change or modification of any terms or conditions shall be binding on Contractor unless made in writing and signed by authorized management of Contractor.

This annual agreement shall continue in effect from year to year unless either party gives written notice to the other of intention not to renew thirty (30) days before the anniversary date.

Agreement Number:

SCHEDULE A

Performance Review

A performance review is held with the Customer on an annual basis. Discussions include quality of work, and improvement suggestions. Items needing attention are addressed in a timely fashion.

Reports

Each completed service call is documented by a Contractor service report. This report is provided to the customer as evidence of the completed service showing each performed task.

Scheduled Tasks

The service program is designed to provide continuing maintenance on the equipment listed in schedule "C" of the Agreement. The tasks planned and scheduled are designed to provide for the long term care of the customer's equipment.

Each service visit will be scheduled and prepared by the Contractors dispatch system. The Contractor schedule includes specific tasks for each piece of equipment required to maintain the systems at peak efficiency.

Maintenance

The run-time, use and application of the piece of equipment determine the equipment service frequency. This information, along with manufacturer's recommendations and our experience assures the customer's equipment receives the most cost-effective maintenance in the industry.

Repair and Replacement

The Contractor invoices for all labor, travel and expenses to repair or replace worn or failed parts and for the parts and components separately from this Agreement. The service agreement includes consumable materials such as lubricants, grease, cleaners and clean-up materials. Replacement of parts and components is subject to the Owners approval and is invoiced separately from this Agreement.

Emergency Service

The Contractor is on call and can provide all labor, travel and expenses, parts and materials seven days a week twenty-four hours a day. Emergency Service is invoiced separately from this Agreement.

SCHEDULE A (Cont...)

MAINTENANCE	10% OFF ELECTRIC/PLUMBING
CLEAN (In Place) INDOOR AND OUTDOOR COIL	10% DISCOUNT ON INDOOR AIR QUALITY
CLEAN or REPLACE FILTERS	NO OVERTIME CHARGES
CLEAN CONDENSATE	SAME DAY RESPONSE

CHECK THERMOSTAT	
LUBRICATE ALL MOVING PARTS	

SCHEDULE B

Terms and Conditions

1. Contractor agrees to perform all work professionally and to furnish only materials of good quality.
2. The customer provides reasonable access to all areas and equipment, and allows Contractor to stop and start equipment as necessary to fulfill the terms of the Agreement.
3. All maintenance tasks will be performed during the Contractor's normal working hours.
4. The customer agrees to inform the Contractor immediately of problems found in the operation of the equipment.
5. The customer agrees to pay and be responsible for any additional gross amount of any present or future sales, use, excise, value-added, or other similar tax, however designated, applicable to the price, sale or delivery or any products, services or the work furnished hereunder or for their use by Contractor on behalf of the customer whether such tax shall be local, state, or federal in nature. **This will include but not be limited to the recovery, recycling, reclamation, handling and disposal of all refrigerants, and the additional costs incurred for refrigerant tax and/or increased costs due to shortages.**
6. Repair or replacement of non-maintainable parts of the system(s) such as, but not limited to, coils, heat exchangers, duct work, piping, shell and tube, unit cabinets, boiler refractory material, insulating material, electrical wiring, hydronic and pneumatic piping, structural supports and other non-moving parts, are not included in this Agreement.
7. If the equipment covered is altered, modified, changed or moved this Agreement may be adjusted accordingly or terminated.

Limitations of Liability and Indemnities

1. The Contractor is not be liable for damage or loss caused by delay in installation or interrupted service due to fire, flood, corrosive substance in the air, strike lockout, dispute with workmen, inability to obtain material or services, commotion, war, act of nature, or any other cause beyond Contractor reasonable control.
2. In no event, whether as a result of breach of contract, or any tort including negligence or otherwise is the Contractor or its suppliers, employees or agents liable for any special, consequential, incidental, or penal damage including, but not limited to loss of profit or revenues, loss of use of any products, machinery, equipment, damage to associated equipment, cost of capital, cost of substitute products, facilities, services or replacement power, down time costs, lost profits, or claims of Buyer's customers for such damages.

SCHEDULE B (Cont...)

3. **No other warranty expressed or other liability is given and no other affirmation of Contractor, by word or action, shall constitute a warranty. This warranty is expressly in lieu of any other express or implied warranty including any implied warranty of merchantability of fitness, and any other obligation on the part of Contractor.**
4. The Contractor's liability, if any, upon any warranty, either expressed or implied, is limited to replacement of defective materials and correction of faulty workmanship which is in violation of local, state, or federal building codes at the time of performance of the work by the Contractor.

RESOLUTION 2022-03

**A RESOLUTION OF THE BOARD OF SUPERVISORS OF THE
LAKESIDE PLANTATION COMMUNITY DEVELOPMENT
DISTRICT DESIGNATING A REGISTERED AGENT AND
REGISTERED OFFICE OF THE LAKESIDE PLANTATION
COMMUNITY DEVELOPMENT DISTRICT.**

WHEREAS, Lakeside Plantation Community Development District (the “District”) is a local unit of special-purpose government created and existing pursuant to Chapter 190, *Florida Statutes*, being situated entirely within the City of North Port, Florida; and

WHEREAS, the District is statutorily required to designate a registered agent and a registered office location for the purposes of accepting any process, notice, or demand required or permitted by law to be served upon the District in accordance with Section 189.014(1), *Florida Statutes*.

**NOW, THEREFORE, BE IT RESOLVED BY THE BOARD OF
SUPERVISORS OF LAKESIDE PLANTATION COMMUNITY
DEVELOPMENT DISTRICT:**

SECTION 1. Sarah R. Sandy of Kutak Rock LLP is hereby designated as the Registered Agent for the Lakeside Plantation Community Development District.

SECTION 2. The District’s Registered Office shall be located at the office of Kutak Rock LLP, 113 South Monroe Street, Suite 116, Tallahassee, Florida 32301 until February 15, 2022. Commencing February 16, 2022, the District’s Registered Office shall be located at the office of Kutak Rock LLP, 107 West College Avenue, Tallahassee, Florida 32301.

SECTION 3. In accordance with Section 189.014, *Florida Statutes*, the District’s Secretary is hereby directed to file certified copies of this Resolution with the City of North Port and the Florida Department of Economic Opportunity.

SECTION 4. This Resolution shall become effective immediately upon adoption and any provisions of any previous resolutions in conflict with the provisions hereof are hereby superseded.

PASSED AND ADOPTED this ____ day of _____, 2022.

Alex Murphy

From: Kristen Franke
Sent: Monday, November 29, 2021 11:10 PM
To: Alex Murphy
Subject: Fw: You just sent a partial payment to DJ Pepa, LLC Event & Entertainment Coordinator for invoice 0187: New Year's Eve: Lakeside Plantation

Hey Alex,

I paid half of the New Year's Eve DJ's fee with your credit card: \$450; it was required to pay half now.

The other half (plus tax) that will be due is \$463.75.

Thanks,
Kristen

FPL automatic bill pay - DO NOT PAY

(See page 2 for bill details.)

KEEP IN MIND

- Payment received after March 16, 2022 is considered LATE; a late payment charge of 1% will apply.
- The amount due on your account will be drafted automatically on or after January 02, 2022. If a partial payment is received before this date, only the remaining balance due on your account will be drafted automatically.
- The number of days included in your bill can vary month to month. So even if you use the same amount of energy per day, your bill may be higher next month due to greater number of service days. Visit www.FPL.com for more information.

When you pay by check, you authorize FPL to process your payment electronically or as a draft. If your payment is processed electronically, your checking account may be debited on the same day we receive the check and your check will not be returned with your checking account statement. FPL does not agree to any restrictions, conditions or endorsements placed on any bill statement or payments such as check, money order or other forms of payment. We will process the payment as if these restrictions or conditions do not exist.

Payments received	-498.89
Balance before new charges	0.00
Total new charges	501.95
Total amount you owe	\$501.95
FPL automatic bill pay - DO NOT PAY	

(See page 2 for bill details.)

KEEP IN MIND

- Payment received after March 16, 2022 is considered LATE; a late payment charge of 1% will apply.
- The amount due on your account will be drafted automatically on or after January 02, 2022. If a partial payment is received before this date, only the remaining balance due on your account will be drafted automatically.
- The number of days included in your bill can vary month to month. So even if you use the same amount of energy per day, your bill may be higher next month due to greater number of service days. Visit www.FPL.com for more information.
